

## Whose Clock are You on?

With God our work with Him and for Him is not rushed or pushed, He just wants you to keep going.

God is not rushed or anxious or uptight, and He does not want His children to be either.

With God there are no countdowns and with God it is never too late.

It is never too late to Dream.

It is never too late to Pray.

It is never too late to Believe.

It is never too late to Surrender.

It is never too late to Begin again.

### Romans 11:29

What God puts in you, He never takes from you, including your goals and dreams.

Gods' delay does not mean His denials.

With people starting to come out again, its time to start your engines and run your race again.

Some of you need an oil change, with new dreams, goals, and desires.

You will never know how far you will go if you do not try again.

### The Results of Expired Dreams.

- **Denial** I did not really care about that anyways.
- **Anger** It is not fair that others have succeeded, and I have failed.
- **Bargaining** God if you make this happen, I'll give up, you fill in the blank.
- **Depression** I am a failure, my life is terrible, what a waste I am.
- **Acceptance** Oh well it's never going to happen, it's obviously too late.

### Genesis 18:10-15

For Sarah it was easier to laugh and not get her hopes up, than to hope and be disappointed.

Do you know what that feels like, are you living a life that feels incomplete because something you have desperately longed for has not happened.

Do you know the grief of living under the burden of too late?

Your too late is Gods just in time.

He loves to do things in your life that man assumes are impossible.

### **Isaiah 55:8-11**

Some people say that God shows up at the last second, but I believe that God shows up at the perfect second.

God is not rushing to beat a deadline, He is not saying oh I have got to hurry up, I am almost out of time.

The opposite is true, He is divinely orchestrating His perfect plan for your life.
